

IRIS DIGITAL VIDEO SYSTEMS

series 960HD dvr's

The IRIS Digital Video Systems Series-960HD DVRs offer extreme versatility and flexibility for your surveillance installations. All systems accept a combination of analog, I.P., and HD-TVI (1080P) inputs, a wide selection of hard disk drive sizes, single channel audio recording, with 8-channel or 16-channel base configurations.

In addition, the Series-960HD DVRs offer streaming to a web browser and a range of mobile devices. For more complex management requirements, Central Management Software supports the remote viewing of up to 64 cameras, and configuration of multiple sites from one or more control centers.

Features:

- 8 or 16 channel video recording
- 4 or 8 channels of I.P. video
- H.264 video compression
- 1080P, 720P, WD1 & D1 recording
- PTZ Control Capable
- Mobile device support
- Supports up to 2 internal SATA HDD
- Scheduled recording
- Motion and alarm triggered recording
- Single channel audio recording
- Per channel configuration
- Alarm recording
- On-screen motion-detection indicator
- GUI
- USB mouse
- HDMI & VGA monitor outputs
- Browser-based software
- IR remote control
